RE: Eden Woods
Proof Rolling Inspection

Dear Kirk:

We completed a site inspection on December 6, 2017 at the request of Jim Ward to witness a proof rolling test prior to the placement of gravel and before the ground freezes. We witnessed the test from the entrance off Zimmerman Road to unit No.(s) 9 and 10. No soft spots were encountered. We did inform Jim that all mud needs to be scraped off the road and swales fine graded and the road elevations confirmed prior to the placement of gravel.

It is unlikely that further work on the road will be completed until spring.

Please contact our office with any questions.

Very truly yours,

Keystone Associates
